Additional information: UAE Football Association

This Webinar is part of the electronic transformation process led by the UAE Football Association represented by the International Relations Committee headed by Salim Ali Al Shamsi, domestically in light of the Corona pandemic, in terms of benefiting from the conferences held virtually and the exploitation of sufficient resources to support football in the UAE in particular and the world in general, as this is the second international Webinar that the UAE Football Association holds after the Medical Webinar, which was held in partnership with the International Football Association (FIFA) last week.

It is Important to state that we will be investing the outputs of this Webinar in building the main topics of the UAE Football Retreat, which is expected to be held next July, that aims to develop and map the future of the Emirati football under the general vision of the Football Association, the specialists and participants in local and international football affairs.

International Sports Convention (ISC)

Founded in Zurich, Switzerland in 2009. The International Sports Convention is an events, media and education business serving the sports industry.

The International Sports Convention is the meeting place for the Business of Sport. This includes our annual event in London with the next edition June 8-9, 2021 at Tottenham Hotspur Stadium.
